Overview. A narrative is a telling of some true or fictitious event or connected sequence of events, recounted by a narrator to a narratee (although there may be more than one of each).

## **Narrative - Wikipedia**

Narrative therapy is a form of psychotherapy that seeks to help people identify their values and the skills and knowledge they have to live these values, so they can effectively confront whatever problems they face. The therapist seeks to help the person co-author a new narrative about themselves by investigating the history of those qualities. . Narrative therapy claims to be a social justice ...

A book for clinicians and clients to use together that explains key concepts of body psychotherapy. The bodyâ€™s intelligence is largely an untapped resource in psychotherapy, yet the story told by the â€œsomatic narrativeâ€-- gesture, posture, prosody, facial expressions, eye gaze, and movement -- is arguably more significant than the story told by the words.
