Title: Human Capital: A Theoretical and Empirical Analysis

This PDF is a selection from an out-of-print volume from

Mathematical economics is the application of mathematical methods to represent theories and analyze problems in economics. By convention, these applied methods are beyond simple geometry, such as differential and integral calculus, difference and differential equations, matrix algebra, mathematical programming, and other computational methods. ...

Mathematical economics - Wikipedia

Financial economics is the branch of economics characterized by a "concentration on monetary activities", in which "money of one type or another is likely to appear on both sides of a trade". Its concern is thus the interrelation of financial variables, such as prices, interest rates and shares, as opposed to those concerning the real economy. It has two main areas of focus: asset pricing and ...

Financial economics - Wikipedia

The Business Valuation Case Law Yearbook, 2019 Edition is essential for business appraisers and attorneys who want to stay ahead of their peers on the most important legal issues brought up in business valuation-related cases. With in-depth analysis from BVR's legal team, the lessons learned in this book help appraisers reach better and more defensible valuation conclusions.
