An ecosystem is a community of living organisms in conjunction with the nonliving components of their environment, interacting as a system. These biotic and abiotic components are linked together through nutrient cycles and energy flows. Energy enters the system through photosynthesis and is incorporated into plant tissue. By feeding on plants and on one-another, animals play an important role ...

Published continually since 1998, "NEWS YOU CAN USE" was a Blog before "Blog" was even a word! Its intention has been to help inform the football coach and the interested football observer on a wide variety of to pics, usually - but not always - related in some way to coaching or leadership. It contains news and views often (trigger alert!) highly opinionated but intended to be thought-pr ovoking.
