

scrum in action agile pdf

Scrum is an agile framework for managing knowledge work, with an emphasis on software development. It is designed for teams of three to nine members, who break their work into actions that can be completed within timeboxed iterations, called "sprints", no longer than one month and most commonly two weeks, then track progress and re-plan in 15-minute time-boxed stand-up meetings, called daily ...

Scrum (software development) - Wikipedia

Scrum is a subset of Agile. It is a lightweight process framework for agile development, and the most widely-used one. A "process framework" is a particular set of practices that must be followed in order for a process to be consistent with the framework.
